

UV Marble Sheet Product Datasheet

Product Overview:

UV Marble Sheets are designed to mimic the luxurious appearance of marble, offering a more affordable, lightweight, and durable solution for interior cladding, countertops, and decorative applications. With UV-resistant properties and easy maintenance, UV Marble Sheets are perfect for residential and commercial use.

Specifications:

- Material: UV-coated composite material with marble-like finish
- Size: Custom sizes available (standard size: 1220mm x 2440mm or 4' x 8')
- Thickness: 3mm, 5mm, 6mm (custom thicknesses available)
- Surface Finish: Glossy, Matte, or Satin (UV coating)
- Color Options: White, Beige, Grey, Marble, Custom colors available
- Water Resistance: Waterproof and moisture-resistant
- Scratch Resistance: Highly resistant to scratches and dents
- Fire Rating: Class B (meets international fire safety standards)
- UV Resistance: UV-coated surface to resist fading and discoloration
- Durability: Stain, heat, and impact-resistant
- Weight: 3-5 kg per sheet (depending on size and thickness)

Application Areas:

- Residential: Kitchens, bathrooms, living rooms, feature walls
- Commercial: Offices, retail spaces, hotels, restaurants, lobbies
- Public spaces: Hospitals, schools, libraries, and corridors

Benefits:

- Elegant marble-like finish without the high cost of natural marble
- Easy to install and maintain
- UV-coated for long-lasting protection against fading
- Waterproof and heat-resistant, ideal for high-moisture areas
- Environmentally friendly and recyclable materials

Installation and Maintenance Instructions:

Please refer to the Installation Guide and Maintenance Guide for detailed instructions on installation and care.
